VOL. 44, NO. 18.

BAR THE PEST.

President Harrison and His Cabinet in Conference.

Prompt Action Taken to Check the Cholera Invasion.

Twenty Days' Quarantine Established at All Ports.

THE PLAGUE THE ONLY TOPIC AT NEW YORK TO-DAY.

Its Banner, the Yellow Flag, Flies Over the Steamer Moravia—Health Officers Have No Doubt That the Deaths on Passage Were Due to Genuine Asiatic Cholera—Other Ships From Europe Detained at Quarantine—American Cities Prepare for the Scourge.

WASHINGTON, Sept. 1.—President Harrison and party reached Washington this morning a few minutes before 9 and were at once driven to the Executive Mansion. The President's unexpected return to the capital at this time was wholly due to his desire to consult with the members of his Cabinet in the city as to what further measures, if any, should be adopted by the government to prevent the introduction of cholera in this country.

The President also requested the presence of Dr. Wiman, Supervisor-General of the Marine Hospital Service, and Assistant Secretary of the Treasury spending to be present at the conference.

The President, only pausing to take breakfast after his arrival, immediately summoned the gentlemen for consultation.

Attorney General Miller was called into the conference to define the power of the President to suspend the operation of the law admitting immigrants into the United States during the prevalence of a pestilence abroad, also to give his opinion as to what extent the prohibition of immigration could be enforced under the state quarantine regulations and in a word to counsel with the President upon all matters affecting his legal powers to act.

Secretary Foster as the head of the Treasury Department, which has the direct enforcement of the immigration laws, as well as to the general supervision of the Marine Hospital Service, was present to inform the President as to the details of the work already done and contemplated, and to receive suggestions as he deemed wise in the premises to put into practical effect.

Private Secretary Halford, while the conference was in session, said to representatives of the press that there was no likelihood of the President issuing a proclamation on the subject, nor that any action had been taken, nor that any action had been taken, nor that any action had been taken.

The latter course would involve considerable time and labor and not be nearly as satisfactory. The President, added Mr. Halford, will remain in Washington several days, and longer if necessary, until everything that can be done is done to keep out cholera.

The President's personal direction upon the matter was given, and to receive the consultation, which lasted two hours, as entirely satisfied with the steps thus far taken by all the United States officers.

As a result of the conference, which adjourned at 12 o'clock, a circular will be issued by the Treasury Department, this afternoon, amounting practically to a twenty-days' quarantine of vessels, or longer if necessary. It will be enforced where it is in non-contravention of state laws. The issuance of the circular may be delayed somewhat, but it is believed that the Treasury Department will publish at the same time an opinion of the Attorney-General bearing on the question of certain rights of the Government in the matter which it is thought should accompany the circular.

Washington was the center of interest to-day, for the reason that it was believed that the President would issue a proclamation closing all the ports of the United States against immigration from Europe during the prevalence of the plague. While this unprecedented step has not been taken, the strengthening of the hands of quarantine officers is a long stride in that direction.

The fact that there are now thousands of Americans on the ocean on route from summer tours of Europe probably had much influence in restraining the President from taking the step so strongly urged upon him of practically closing our ports against all foreigners until the subsidence of the pest in Europe.

DISINFECT THE MAILS. The Postmaster-General is determined that cholera shall not be admitted to the United States through the mails if the Post-Office Department can prevent it, and to-day he signed a letter instructing the Superintendent of Foreign Mails to immediately take such steps as may be necessary and practical, to thoroughly disinfect the mails reaching the United States from foreign ports at which contagious diseases are said to be prevailing, and to facilitate the same communication between vessels undergoing quarantine and the nearest United States post-office.

In accordance with these instructions, Capt. Brooks, Chief of the Foreign Mails Bureau, has directed that all mailbags be thoroughly disinfected, but has not determined upon what shall be done regarding the mails from quarantined vessels.

The protection of the Canadian border is receiving close attention.

The Secretary of the Treasury to-day received a letter from the Governor of Michigan requesting him to detail an additional force of inspectors between quarantine and Saint Marie during the prevalence of cholera.

Secretary Foster replied that the request would be granted and a letter of medical inspectors will be detailed for duty in Michigan.

The United States Consul at Hamburg called the Department of State to-day that the Hamburg Packet Co. are disinfecting all their vessels, although they will carry no passengers.

During the special conference at the White House the whole situation was very thoroughly discussed. The Treasury officials explained the situation to the President, and Dr. Wiman indicated what had been done by his bureau toward strengthening and rendering efficient the national quarantine service.

Health Officer Jenkins yesterday sent the following telegram to the Secretary of State: "The steamer Moravia, from Hamburg, arrived at New York at 8:30 last night. Upon boarding her this morning the surgeon reported twenty-two deaths; twenty cases of cholera, and one case of Asiatic cholera. She was ordered to quarantine."

The State Department has received a dispatch from the Consul-General at St. Petersburg that the steamer Moravia, which was on her way to New York, had been detained at quarantine.

Shippers claim it is impossible to disinfect water and hides as required by the Treasury instruction. Ships declined to accept the Treasury instruction.

An immediate answer was requested, and the matter is now under consideration by the department.

ENFORCED WITH GUNS. The Treasury Department will have the national quarantine at Delaware Breakwater and Cape Charles, Va., equipped with guns and other arms, and will be ready to enforce regulations for the prevention of the introduction of cholera. The authorities are determined that no vessel shall pass the points named and proceed to New York without being inspected by the health officers.

The revenue steamer Winona is expected to arrive at Delaware Breakwater some time during the day from New York, which place she left several days ago under orders from the Department. The revenue marine cutter, Crawford, stationed at Baltimore, will be detailed for duty at Cape Charles, Va., and the cutter, Crawford, will be detailed for duty at Cape Charles, Va.

The cutter, Crawford, will be detailed for duty at Cape Charles, Va., and the cutter, Crawford, will be detailed for duty at Cape Charles, Va.

that these are all clean and their passengers in healthy condition.

Some anxiety was felt for the welfare of the passengers on the Lahn and Gallia as many of her passengers were known to have come through some of the infected localities.

Both vessels came into port last night. Coming from Bremen and freighted as she was with returning tourists who have passed through many places in Europe that have become infected with the plague.

Dr. Jenkins, Chief of the Marine Hospital Service, who was on board the Lahn and Gallia, reported that the passengers were all healthy.

ber 1,728 in all, divided as follows: First-class, 110; second class, 118; third class, 500. The examination of the entire number occupied nearly two hours and on their return to the shore Dr. Talmadge announced that the passengers were all healthy.

The Gallia has on board the Russian Jews and 140 Poles, both of which classes are regarded with suspicion by the quarantine officials. Dr. Talmadge ordered both classes to be divided from the other immigrants when he went aboard the steamer, and their examination was conducted separately and with extreme care.

In the case of the other immigrants, they were of course examined carefully, but with the Russian Jews and Poles each one was examined by the two physicians, and when even the faintest suspicion attached itself to one of the party the person was taken out of the line and re-examined.

After the examination had been taken, the physicians consulted with each other and came to the conclusion that there was no occasion of alarm because of cholera from any of the immigrants.

In ferry houses, railroad stations, factories, etc., for such as may be taken ill there, or while riding on ferry boats or railroads (street or steam) within the city. This room should be easily reached and have a water-tight floor. Persons suffering from vomiting or purging should be placed in the room at once and the Health Board immediately notified. It should be placed a barrel of disinfecting fluid (corrosive sublimate 1 part to 500 parts of water) which should be freely poured on all suspected cholera discharges (vomits and diarrheas) before their removal, which should immediately follow disinfection, in a proper receptacle to a place of safety. When thoroughly saturated with the disinfecting fluid the discharges may be thrown into the river or sewer.

All surfaces soiled with cholera discharges should be thoroughly scrubbed with the disinfectant, care being taken to permit none of the discharges to pass into cracks in the floor or through them to the surface beneath. The floors should be washed with the disinfectant and thoroughly cleaned and disinfected.

The floors of ferryboats, ferry-houses, railroad cars and depots should be scrubbed daily after thoroughly sprinkling with the disinfecting solution, and the walls and ceiling should be washed with the disinfectant.

Persons who are infected by cholera should be isolated in a room of their own, and the above regulations are issued for the government of railroads, ferries, etc., in this city only, as regulations will doubtless be issued upon this subject by the State Board of Health and by the Health Board of the city.

By order of the Board of Health, EMMONS CLARK, Secretary.

This solution is poisonous and must be kept in a tight barrel with a suitable faucet.

Notwithstanding these precautions the fact remains that only a few cases of cholera have been reported in this city from a dread plague ship.

PILOT ROFF'S STORY. The only man permitted to leave the Moravia was the pilot, John Roff.

Mr. Roff was taken off the Moravia at 3:45 o'clock yesterday afternoon, when she was lying in Gravesend Bay. He boarded the health officers' tug which took officials aboard to fumigate the vessel. The pilot did not land at quarantine. The tug touched there for a minute and then went to the bark Clyde River, upon which Roff was taken.

From the time Roff left the Moravia until he was taken off, he was suffering from cholera. He was taken off the ship at 3:45 o'clock yesterday afternoon, when she was lying in Gravesend Bay.

He was taken off the ship at 3:45 o'clock yesterday afternoon, when she was lying in Gravesend Bay.

ter. One fellow in a waistcoat of verdant green called out in fairly good English, "Send us up some beer."

Without waiting for what would have been a refusal he turned and evidently repeated the request in German. For nearly everybody laughed, even the comely woman who wants to join her husband in Worcester.

A PLACARD was seen in 1882. In 1886, when the cholera raged in many places, Dr. Swineburne was Health Officer at this port and Dr. Sayre was resident physician. Dr. Swineburne was out of the city at the time the steamer Moravia arrived Nov. 4, with the cholera on board. Dr. Sayre was in charge and decided to keep the vessel in the bay. He found that the cholera was confined to one section of the vessel and had originated with one person who had come from Hamburg and had lived in a house in that city where cholera had broken out. The steamer on board had been confined to that end of the boat.

Dr. Sayre immediately had the bunks near that section torn down and a partition built up separating it entirely from the remainder of the vessel, and did not allow any one from any other part of the ship to cross into the infected part. Dr. Sayre held them, as he now maintains, that infection is communicated by means of the bacilli which are floating in the air and that the spread of the disease is prevented by a strict quarantine. For these views he was much abused by medical authorities at the time.

Dr. Sayre's theory, however, has been proved correct. For a single person in the infected portion was attacked by the cholera, and the disease spread to the other passengers.

The health officers were given a place at Sandy Hook and the steamer Moravia was taken to the quarantine station.

The Jerseymen, including their Legislature, however, became so alarmed that the steamer Moravia was taken to the quarantine station.

Dr. Sayre thought a cholera hospital should be divided into three parts, without communication between the three parts, and that the patients should be put in another place for cholera convalescents.

He would not be right to place persons who had simply cholera morbus or other summer complaints among infected patients.

strain on the other hospitals. For instance, St. Bartholomew's Hospital, which is one of the largest in London and vicinity, has only two small wards available in the event of a cholera epidemic. The hospitals have been greatly crowded owing to the scare over the epidemic.

At the Grosvenor farm hospital, near Darwent, where the utilization of what was intended for a smallpox hospital as a receptacle for "convalescing" fever patients provided an extra bed a few weeks ago, when the asylum board was in a very great emergency, not only have 118 beds been added, but 120 more have been added, and ninety-seven of them are already occupied. Twenty of the beds are kept for isolation purposes and there are only three available beds at Darwent. The State Board of Health has provided means to stop all suspicious cases at board for isolation.

TIMELY WORK.

Citizens and City Officials Guarding Against Cholera.

Precautionary Measures Promptly Taken To-Day.

HEALTH COMMISSIONER BRENNAN ASKS ALL ST. LOUISANS TO CO-OPERATE.

He Makes a Report to the Mayor Advocating an Increase of the Sanitary Staff—Action Taken by the Street and Sewer Commissioners—The "Post-Dispatch" Sanitary Reports" Begin Promptly—Dangerous Nuisances Pointed Out.

The people have at once taken advantage of the opportunity offered to secure the safety of St. Louis against cholera by a formal system of unofficial "sanitary reports" of dangerous nuisances, the reports to be made through the Post-Dispatch. In accordance with the article published yesterday, the following letters were received to-day and are now published, the exact location of the private houses complained of not being made public, but given to the Health Department for investigation. The letters are as follows:

To the Editor of the Post-Dispatch: DEAR SIR—I wish to call your attention to the cholera-breeding, stagnant pool of water in the gutter on Garfield street, between Market and the corner of the street. The water is very filthy and the odor is very offensive. I think the authorities ought to take some measures to abate it.

To the Editor of the Post-Dispatch: DEAR SIR—I wish to call your attention to the cholera-breeding, stagnant pool of water in the gutter on Garfield street, between Market and the corner of the street. The water is very filthy and the odor is very offensive. I think the authorities ought to take some measures to abate it.

weather sets in. The prompt removal of garbage and manure boxes will also be insisted upon.

Sewer Commissioner Southard said: "I have a force of twenty-four sewer cleaners with ten carts, now hard at work doing all they can to clean the sewers. Of course, nothing but a hard rain, say a fall of two to three inches within a few hours, can flood the large sewers, such as Mill Creek, and thoroughly clean them."

"Owing to the recent Mississippi flood Mill Creek sewer was choked, and decaying animal matter was lodged to its walls as far up as Broadway. This matter is a month old now, however, and I believe danger from it is past. The greatest danger from the sewer arises from the matter discharged in them by slaughter-houses, dairies, chemical works, oil mills, and butcher shops, in violation of the city ordinances. This should be stopped at once."

HEALTH COMMISSIONER'S REPORT. At 12 o'clock this afternoon a conference was held in the Mayor's office at which His Honor, Street Commissioner Murphy, City Comptroller Stevenson and Health Commissioner Brennan were present. The Health Commissioner presented the following communication, which was read:

St. Louis, Sept. 1, 1892.

Hon. Edward A. Noonan, Mayor.

Sir:—While it is not probable that our city will be visited by cholera, still I deem it best that our citizens should be warned as to where the danger of its propagation lies, and that they may co-operate with the Health Department in not only making the city as clean as possible, but that they may keep it so. All investigations on the subject of cholera show clearly that it tends to spread in the lines of business and travel; hence quarantine of the strictest character is the best safeguard, for without introductions into this zone, the cholera germ could not flourish.

After its introduction, however, it may find a fruitful soil, unless our citizens co-operate with the Health Department in the sanitary laws. The Health Department expects the public's assistance. It is much to be desired that the progress would be slow.

Among the predisposing causes of the fatal disease are personal uncleanness, impure food and water, impure air, and general uncleanliness of the city with which the tenement and poorer districts are surrounded. It is therefore necessary to understand what procedures are necessary to abate the nuisances which may exist. It is well for them to know where to direct their complaints, for at all times the Health Department is in receipt of communications in relation to matters over which it has no control. Later this year the Health Department will publish a list of the places where the responsibility for cleaning should be properly placed, and submit a list of the places where the Health Department is responsible for cleaning.

The Health Department is not responsible for the cleaning of streets, and it is not responsible for the cleaning of alleys, gutters and alleys. The cleaning of streets, gutters and alleys is the duty of the property owner. The Health Department is responsible for the cleaning of the city, and it is not responsible for the cleaning of streets, gutters and alleys.

Ladies' Dongola Kid Oxford Ties, sizes 2½ to 7, At 79 Cents. Former price, \$1.25.

Point d'Irlande Laces, 3½ to 5 inches wide, 10c to 15c Per Yard. Reduced from 20c.

It was not Drase. A Negro Arrested as Mate Lynch's Slayer—The Inquest—Police News.

Word was received from Venice, Ill., this morning that Osborne Drake, the negro deck hand of the Ford, Harold, who killed second Mate Philip Lynch of the steamer had been arrested there. An officer who is acquainted with Drake went over to Venice to identify the prisoner. The negro arrested was not Drake, however, and he was released.

LABOR DAY CLOSING. A Vote to Be Taken on the Merchants' Exchange To-Morrow.

Labor Day, which falls on Monday next, will probably be celebrated as a holiday by all the boards of trade in the country. Notice has already been given of their intention to adjourn by the principal exchanges except the St. Louis. To-day a petition bearing numerous signatures was presented to the directors, asking that a vote be taken on the question of adjournment on Sept. 5. A meeting was held, and a vote ordered for to-morrow. It is regarded as certain that the vote will be in favor of adjournment.

Wants Irish Mus'c. A letter was received to-day by the Park Commissioner from Patrick Brennan in which complaint is made that the musical selections given by Raffano's band at the park concerts smack too loudly of the air of a Berlin beer garden. As one of a number of Irish tax-payers, he says, his father, who is a constant attendant at the concerts, would be delighted to hear occasionally some of the tuneful melodies of the Emerald Isle.

Killed by an Emory Wheel. Frank Schaffner, employed at the Scherpe & Koken Iron Works, on Chouteau avenue, and Manchester road, was killed by the bursting of an emery wheel this morning. Schaffner was a single man 40 years old. The body was removed to the morgue.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Refused to Prosecute. When the cases of Wm. Schake and Emil Meyers were called in the First District Police Court to-day the men, who made cross charges against each other, refused to prosecute and the cases had to be dismissed.

Schake shot Meyers through the nose, the ball entering one side and coming out of the other. The other, who was shot through the chest, refused to prosecute and the cases had to be dismissed.

RUSSIA'S BOLD ACT.

Canada Aroused at the Seal Fisheries Outrage.

A WARSHIP ASKED FOR TO PROTECT BEHRING SEA VESSELS.

The Affair Likely to Grow Into an International Clash—Duelists Projected Between French Officers—Labouchere Lamphooned by the British Press—General Foreign News—Brief Mention.

VICTORIA, British Columbia, Sept. 1.—The news of the seizure of one San Francisco sealer and three Victoria sealers by the Russian gunboats has created a great sensation here. It is pronounced by sealers here as a gross outrage.

A meeting of the British Columbia Sealers' Association was hurriedly called and the case was discussed in all its phases. The meeting was held with closed doors and the only fact reported was that the sealers had prepared a full statement of the details of the case to be telegraphed to Sir John Abbott, Premier of the Dominion of Ottawa. Theodore Davis, Provincial Premier, also took the matter up and has had affidavits embodying the main facts prepared for the use of the department at Ottawa.

Capt. J. C. Fox, President of the sealers' Association, said: "We have notified the Government, but I hope for no action. There was nothing particularly uncharacteristic in what the Russians did, viewed in the light of past events. For three years the United States seized our vessels without warning. The crews were fast ashore at Sitka and the men who seized our vessels cared not how the crews reached home. In this case the Russian officer seems to have shown a little solicitude on behalf of the men who wanted to get home. There was a time when with pride, almost sensitive, the nations of the world protected their flag on the high seas. But now chivalry and valor have given way in part to contemptible policy. I guess the British flag on the Canadian vessels can be trampled on quite safely."

General action will be taken to bring the seizure to the attention of the Government and to obtain redress. The Board of Trade will embody the facts in a memorial to Ottawa immediately and the Vancouver Board will be requested to co-operate. Attorney-General Davis has also taken the case up and has had affidavits and evidence made out and will lay them before the Government in person. Collector Milne will also forward a statement.

According to the records of the Sealing Association there are yet forty-three sealing schooners out, all having received instructions, after getting the catch out, to go to the Russian and Japan coasts. It seems certain that these may be captured, and if the same measures are adopted the crews will be left to perish on the barren shores of the Behring sea. The loss shown eventually will be enormous, each of the schooners being valued at between \$5,000 and \$20,000. The worst of all is that the sealers have no means of warning their schooners. A request has been sent to Admiral Hotham to send a warship to the Russian coast to protect the British interests.

LABOUCHERE LAMPHOONED.

THE PICTURESQUE EDITOR GETS IT FROM ALL SIDES.

LONDON, Sept. 1.—The Labouchere affair has raised a discussion in the newspapers as to whether the Queen has a constitutional right to interfere with the selection of ministers.

The *Globe* (Conservative), in setting forth its views on the question, says it is an exceedingly strange doctrine that holds the crown has no sort of right to an opinion.The *St. James Gazette* (Conservative), says: "The radical view of the Queen's position and rights is a more important one than that much cracked vase, Mr. Labouchere's reputation for decency. If the Queen acted as described, she was absolutely justified in the strictest constitutional theory, that the crown has a choice if the Premier begins a course of hardy concealed revolution with a chance majority dependent upon the Irish vote, the sovereign might dismiss the ministers, dissolve Parliament and appeal to the country."The *Times* says: "Mr. Labouchere has not added an atom of proof in support of either of his contentions. His sole aim is to provide spicy paragraphs for his paper. Truth, he does not want to enter the Cabinet for various reasons."The *Standard* in an editorial this morning says: "We regret to have to confess that as bad as Mr. Labouchere figures in the correspondence between himself and Mr. Gladstone, he gets the best of the personal encounter of Mr. Gladstone. Why did not Mr. Gladstone say plainly and plumply that he did not regard Mr. Labouchere as being fit for the cabinet instead of correcting him by compliments and leaving the reader to wonder why he was not appointed. The universal feeling will be that the Queen is entirely unaffected by this sorry inconclusive correspondence."

WATCHING MARS.

RESULTS OF OBSERVATIONS IN A PERUVIAN OBSERVATORY.

ARQUIPA, Peru, Sept. 1.—Prof. Pickering reports from the Observatory here that Mars has two mountain ranges near the south pole. Melted snow has collected between them before flowing northward. In the equatorial mountain regions snow fell on two summits Aug. 5, and melted Aug. 7. Eleven lakes were seen near solitudes, varying in area from 800 to 100 miles to 4000 miles. Branching dark lines connect them with two large dark areas like seas, but not blue. There has been much trouble since the snow melted in the Arcaen clouds. These clouds are not white but yellowish and partly transparent. They now seem to be breaking up but they hang densely on the south side of the mountain range. The northern green spot has been photographed. Many of Schiaparelli's canals have been seen single.

WILL FIGHT THEM ALL.

BIG CONTRACT UNDERTAKEN BY A PUGNACIOUS FRENCHMAN.

PARIS, Sept. 1.—Lieut. Trochu has made a statement as to the quarrel between himself and Capt. Crenieux, a Hebrew officer who gained considerable notoriety by his announced determination to fight a duel with the Marquis de Mores after the latter had been sent on a mission to Algeria. In the recent trial of de Mores, Lieut. Trochu made some statements which offended Capt. Crenieux, whereupon

the latter sent him a challenge. Lieut. Trochu's colonel forbade the duel and he determined to wait his rage in another manner. He went to the officers' mess yesterday and, according to one account threw a glove in the face of Lieut. Trochu whereupon he was promptly thrown out of the room. Lieut. Trochu says that the door of the mess-room suddenly opened and Capt. Crenieux entered. He said to him, "I'll box your ears." The lieutenant seized a stick and belabored the captain and kicked him at the same time. At this the officers present threw bottles and other missiles at the captain and a desecrated struck him on the temple. Then the pugnacious officer was picked up and forcibly thrown out of the room. Subsequently both Lieut. Trochu and Capt. Crenieux were before the procurer. Capt. Crenieux declares that he will challenge every officer who had a hand in the affair.

BRITISH TOPICS.

EXAGGERATED REPORTS CONCERNING MR. GLADSTONE'S CONDITION.

LONDON, Sept. 1.—Exaggerated and sensational reports having been sent from here regarding the accident that befell Mr. Gladstone yesterday a reporter has made inquiries to learn the exact condition of the Prime Minister. The response to these inquiries bears out the statement cabled last evening that Mr. Gladstone sustained no physical injury whatever from his encounter with the heir in the grounds of Hawarden Castle. He is perfectly well in every way, and the report that he was severely injured is wholly untrue.

Home Secretary Asquith, at the request of the Irish members of Parliament, has consented to take into consideration the question of the release of the Irish convicts now serving in prison under conviction of having been connected with dynamite plots. These are the prisoners who release Sir William Vernon Harcourt, now Chancellor of the Exchequer under Mr. Gladstone, and Home Secretary at the time the persons were convicted, has repeatedly refused to recommend.

GENERAL FOREIGN.

CANAL TOLLS RETALIATION GOES INTO EFFECT TO-DAY.

MONTREAL, Sept. 1.—President Harrison's retaliation proclamation goes into effect to-day, and the trade here are anxious on account of the Government having made no preparations to nullify its effect. It was semi-officially promised that the tolls imposed by the United States would be repaid to Canadian vesselmen by the Dominion Government, but no money has yet been voted for this purpose. There is a prospect of the detention of a number of ocean steamers at this port by reason of not receiving their grain, as the tolls not being refunded this grain will go to Ogdensburg in American bottoms. If enough grain cannot be procured in time the ocean steamers will have to go without their full freight.

A GUNBOAT TO THE RESCUE. MADRID, Sept. 1.—A Spanish gunboat has been dispatched to try to rescue the eleven members of the crew of the Spanish ship that fell into the hands of Moorish pirates a few days ago while engaged in trading between Cape Juby and Rio Doro. The name of the vessel captured is the *Yard*, not the *Yacob*, as the first reports of the affair erroneously stated.

A SPECTER OF WAR. SIMLA, Sept. 1.—A mountain battery and several battalions of Panjab infantry and cavalry have been ordered to hold themselves in readiness to reinforce the troops in the Wana Gomul valley in the event of the Amer of Afghanistan failing to recall his troops who are disturbing the peace of the Indian frontier.

FACTORIES REOPENED. HAVANA, Sept. 1.—In accordance with the suggestion made by the Board of Cigar Manufacturers' Union many of the cigar factories that were closed as a protest against the action of the Minister of the Colonies in refusing to remove the excessive tax placed on them were reopened to-day. The other factories which did not reopen to-day will resume operations on Monday.

BRIEF MENTION. As a result of the international anti-slavery convention held at Brussels, an international bureau will shortly be formed in Zanzibar, in which England, France, Germany, Italy and Portugal will be represented.

The New Zealand House of Representatives has again passed the bill extending the elective franchise to women which was rejected in 1891 by the Legislative Council.

A suspected Russian spy has been arrested for taking photographs of the fort at Townsville, a seaport town on the northeast coast of Cleveland Bay, Queensland.

ILLUMINATION NIGHT.

Leland Miller, the dispensing chemist at Locust and Sixth streets, will add within a few days to his already complete stock a large line of new beauties from the famous house of Roger & Gallet, Paris. Newsponges, tooth and hair brushes from Dupont & Co., Paris, and Robert Low of London, and other novelties from the best workshops of the world. He will be pleased to see all the ladies and their friends this Illumination night, and will serve at his fountain the delicious favorites, Roman punch, peach and cream soda and mint phosphate.

FELT HER ARM.

Mrs. Thomas Coles' Unpleasant Experience With a Negro Burglar.

Mrs. Thomas Coles, who resides on the first floor of No. 710 South Eighteenth street, had quite an exciting experience with a burglar about the time Monday morning that a visit was paid by thieves to the house of Jefferson Davis stunts, the Police Court practitioner, at No. 129 Singleton street, which is in the same neighborhood. The burglar entered the Coles family were entered about 2 o'clock by a big, burly, black, kink-haired negro. Mr. and Mrs. Coles have slept in the rear room during the warm weather and had changed their room Sunday night when they went to bed. The negro who entered the house approached Mrs. Coles where she lay in bed near a table and, taking her dress from under the pillow, searched it and found \$15. He then went to the other side of the bed where Mr. Coles was asleep and took \$5.00 from his trousers' pocket. The burglar did not leave at once with his plunder, but lingered awhile near the bedside, placed his hand on Mrs. Coles' arm, and moving it up as far as her shoulder. The touch awakened her, and at sight of the black intruder she uttered a scream of terror, which caused him to flee toward the window and escape. "Oh, is that negro man?" Mrs. Coles exclaimed. She felt the fellow had yanked her in the outer darkness when her husband grasped the situation moment later and went in pursuit. Mrs. Coles was not at home to-day, but the lady who resides in the same house and refused to give her name said that Mrs. Coles meant by her exclamation that she believed him to be a negro who used to work in the neighborhood.

Opening Postponed.

The Sisters of the Visitation have decided to postpone the opening of the new Academy at Cabanne place to Monday, Sept. 12. On that day every department of the institution will be ready for work so as to necessitate no further delay.

Untaxed Bull Butter.

Charles A. Kraft, residing at 4254 Easton avenue was arraigned before U. S. Commissioner Crawford yesterday on the charge of fraudulent oleomargarine without the payment of a special tax. The defendant gave his personal bond for \$200 for his appearance before the November term of the District Court.

TIME IS FLYING.
SEE THE ONLY M'NICHOLS.

Time is flying, summer drying. Once more leaves are falling brown. Men are going ways of voting. About folks return to town. Paper-plaster—go on faster. Changes a side for those who roam. Things look neater, cleaner, sweeter. For the wanderers who come home. Here's the reason, happy season. Exposition, fair and race. Those all make St. Louis take. Of all cities, first best places. Prospects clouded, hotels crowded. Not a spot to stop for a while. This will be the case, you'll see. Unless straightway you begin.

Oh, what sights and miles of lights. Yellow, green, red, white and blue; Oh, what blindness and unkindness. Filled with not a single ray. Then why stifle, see M'Nichols. One who'll help you and he can. Old things look neater, cleaner, sweeter. On his wise installment plan.

Your fault only, if you're lonely. With no interest in affairs. Neighbors of it, and don't rue it. Your chance is as good as theirs. Carpets, furniture, all guaranteed. Curtains, dishes, portieres, lamps; Go while able, tis no trifle. Then you'll sympathize with tramps.

The time is coming and rapidly when every inch of room is valuable; get you a home now before hand of (Trade Mark) THE ONLY M'NICHOLS. 1015, 1021, 1024 Market st.

P. S. M'Nichols always offers the best goods and lowest terms. CREDIT—ALL YOU WANT. Finest household goods in town. Furniture, carpets, matting, baby carriages, refrigerators, stoves, lamps, dishes, etc., none better, none so low as now! Read this note right begins.

Getting Down to Business.

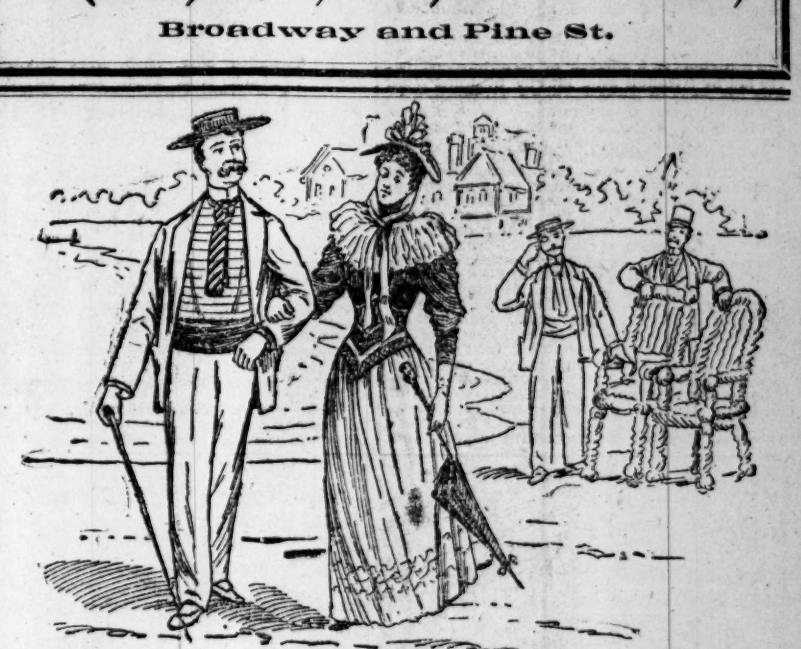

OUR Fall Stock is coming. Every day adds to its size and variety.

Handsome goods at better values were never offered. Wouldn't it be a good scheme for you, before settling down to business, to buy your fall suit? To get it off your mind and on your back will be a restful and happy change. There will be nothing on your mind then but business.

Our suggestion as to immediate buying includes full fall season's wear and pick of styles and sizes.

No danger of not being pleased; no fear of not being fitted; satisfaction in service we guarantee.

The tailor can do no more for you than we can, only he can charge you, and will, from half more to double what we do, and you'll be glad to know you don't have to pay it if you come see our clothing.

BROWNING, KING & CO.,

EAST ST. LOUIS AND BELLEVILLE

Malleable Iron Works Soon to Start Up

It will be but a short time until East St. Louis, new industry, the malleable iron works, will be in operation. The buildings originally planned for erection were completed several months ago. They are of brick, substantially built and cover several acres of ground. A few weeks ago the work of removing the machinery from the old plant in St. Louis to the new factories here began, and when all the machinery had been transferred it became apparent that there was not sufficient space in the buildings already erected to accommodate the hundreds of machines to be put in position. With prompt action the directors of the company therefore decided to have other buildings erected at once and work on them is now progressing rapidly. Two new buildings are being put up, one of brick and another in wood. The frame structure is already far advanced while the foundations for the brick building are nearly completed. Meanwhile a large force of machinists are at work putting the machinery in place in the buildings already erected, and it is expected that the influx of mechanics to the city will have the effect of building up the work and many others in a course of reconstruction. East St. Louis, in that part of the city has lately been in great demand, as there is no doubt that the section will be built up rapidly as soon as the malleable iron works are in operation, and investments in the new property cannot fail to be profitable. In addition to this large plant there are the glassworks, the steel post works and the Wuerpel switch works in the same vicinity. The glassworks, which were inoperative during the heated term, will resume work next Monday, and the switch works are almost completed, while the steel post factory is in operation for some time. With these four manufacturing in steady operation the city will steadily improve and prosper.

A. H. Becker was arrested today on a capias and was taken to the Belleville Jail.

There is an old charge of a misdemeanor against him, on which he was indicted several months ago. He is in the employ of the Royal Clear Co. of St. Louis, in the capacity of a salesman, and was accused of embezzling \$12,000 from that firm. He is a native of St. Louis, and one of his bondsmen, of Belleville, became fearful that he might jump the bond, and decline to release him. He is a native of St. Louis, and one of his bondsmen, of Belleville, became fearful that he might jump the bond, and decline to release him. He is a native of St. Louis, and one of his bondsmen, of Belleville, became fearful that he might jump the bond, and decline to release him.

A damage suit in which Hugh McGeehan sought to recover \$5,000 from the Citizens' Electric Railway Co., was tried in the City Court today.

According to the testimony, McGeehan was ejected from an electric car in November last. He claimed the conductor, who ejected him, struck him in the head with a brake bar. The jury returned a verdict for the defendant.

Frank Fitzhugh, arrested yesterday on a peace warrant, was tried in the City Court today.

He was charged with threatening to kill his wife, and was found guilty. He was sentenced to the House of Correction for six months.

Illinois Lodge, No. 28, K. of H., will hold a special meeting at George's Hall tonight.

Paxon Republican Rally.

PACON, Ill., Sept. 1.—Yesterday the speakers at the Republican rally were C. W. Paxon and Richard Gates.

AT THE THEATERS.

"Nothing but Money" at the Grand-Attractions of Next Week.

To-night at the Grand Opera-house Geo. W. Lechner's stock company will change the bill, presenting for the first time in this city Mrs. Romualdo Pacheco's new farcical comedy entitled "Nothing but Money." This piece was presented in Chicago at the Grand Opera-house, inaugurating a tour of this company, and made a very favorable impression.

Mrs. Pacheco has since that time made improving changes in the comedy, and it is expected to equal in humorous effectiveness her comedy hit of last season, "Innocent."

The comedy company has a large and talented cast, and the piece is expected to be a success.

The comedy company has a large and talented cast, and the piece is expected to be a success.

WANTS TO FIGHT

Mike Mooney, a Local Lightweight, Anxious for a Scrap.

HE CHALLENGES THE WINNER OF THE MYER-MAULIFFE BATTLE.

If They Meet Him He Will Be Satisfied With Andy Bowen or Johnny Daly—Tom Kelly Carries \$250 Forfeit Money to New Orleans to Make the Match—Sporting News.

Prof. Mike Mooney, physical instructor at the Missouri gymnasium, who is one of the coming lightweights of the West, has announced his willingness to meet the winner of the McAuliffe-Myer contest. Prof. Mooney has authorized Tom Kelly, the ex-middleweight champion, who will attend the pugilistic carnival at New Orleans next week, to arrange the contest if possible at 133 pounds, the lightweight limit, or take two pounds, at from \$1,500 to \$2,000, or more, if necessary, a side, and the largest purse that can be secured. Kelly has \$250 which he will post as a forfeit for the contest. Should Kelly be unable to arrange an encounter with the winner of the McAuliffe-Myer contest, Mooney has authorized him to announce that the challenge is open to either Andy Bowen, who defeated Billy Myer, or Johnny Daly of this city.

Mooney's announcement of his willingness to encounter either McAuliffe or Myer has created considerable comment in sporting circles in this city. Most of the knowing ones seem to think that Mooney was not serious, but the fact that he has put up his money, has of course silenced such talk. Tom Kelly, who will represent Mooney, is of the opinion that Mike certainly has a right to demonstrate just how good he really is and according to Tom, he surely will have a much better opportunity, to do so by going up against first-class men, than by knocking out a whole raft of second raters.

Speaking about the matter yesterday Mooney said: "I have boxed with Myer and am pretty certain that I can hold my own with him. Two years ago, shortly after he fought McAuliffe, I heard that he was making a tour of Illinois with a standing offer, agreeing to give 50 per cent of the gate receipts to any man of his weight who stayed four rounds with him. I was in this room all the time, and, believing that this was a chance to gain considerable reputation and a little money, I took a train, called on Myer and stated that I would like to take a shot at him on his own proposition. He then informed me that the offer included only local champions. He said, however, that he would pay me \$50 to spar four rounds. I agreed, and shortly before I went on he came into my dressing-room and stated that he had a bad right and during the skirmish it got beyond his control sometimes. I thanked him for the information and prepared myself accordingly. While the contest was in progress, the referee was a one-handed fighter almost exclusively. By that I mean he does all his effective work with his dexter hand. In his contest with me and in the two fights he had with Andy Bowen at New Orleans, he refrained from leading, or in other words fighting, almost exclusively. This makes it a very difficult feat to put him out, as to do so one has to get an opening, which is rarely offered by fighters of his class. In fact, to sum the whole matter up in my opinion of Myer, is that outside of his ability to defend himself and the terrific hitting power he brings into play with his right, he is not much better than an ordinary lightweight. His contest with Carroll, however, is one that I give much consideration. Carroll is admitted to be one of the most scientific men of his weight in the business. Now, a man to be scientific must be able to utilize both hands in good shape. Consequently when Myer went in and put him out my opinion of his ability changed considerably in his favor. I account for it on the grounds that he is a much improved man."

"I have," he continued, "and have unlimited confidence in my ability to show up well against him. I should like to add the privilege of meeting either McAuliffe or Myer, Bowen will fit the bill."

"Fighting is my business, by my means," said Mike, closing the interview. "but as several wealthy business men want to see what I can do, I have concluded to bear the cost of the trial. I have concluded to accommodate the public, and to deny that in the way of reputation and money there will be considerable if it also for Mike Mooney."

QUEEN NANCY.

INDEPENDENCE, Sept. 1.—Nancy Hanks yesterday closed her career as the world's trotting record holder by herself in Chicago three weeks ago, and made the circuit of independence's famous kite-shaped track in 2:05. All the conditions were favorable for a record-breaking mile, and Nancy proved herself fully equal to the occasion. At 2:05 o'clock Nancy Hanks was brought out for a warming-up mile. When she first appeared on the turf with her great driver, Doble, in the sulky, she greeted the entire crowd with a smile. At 4:05 o'clock she again appeared and the scene was repeated. The perfect action and the perfect day made everything seem favorable. Promptly at 5:15 the great horse trotted to the starting line, donned his driving cap, and the announcement was made that Nancy Hanks, holding the world's record of 2:07, was ready to start. Two prompters appeared on the loop to help her along with the wind. The hoof beats in the greatest mile of her life. On the second score Doble's head gave a quick nod, and the mare was given and a hundred watches were started to mark the seconds until she should appear under the home wire. Old Abe Lincoln, who went the mile with her in Chicago in 2:07, piloted by Frank Starr, took his place next the mare and Williams, driving a runner, Ned Gordon, went to the outside, prepared to come up in the homestretch. With smooth, perfect and matchless gait, Nancy Hanks trotted the quarter in 30 seconds. At the half she turned in 1:01 without a misstep, then began her grand race. Without a wobble and with perfect swing, she shot past the third quarter pole in 1:34. Here Williams came up with his runner and Doble looked the mare's head. He encouraged her by voice and a gentle use of the whip and without a falter she went on. At the fourteenth minute a breathless silence reigned. Everyone was consulting his watch and the figures at which the hands had stopped held the crowd in awe. Then, awake to the fact that all record had been broken, the great assemblage burst into cheers loud and long as the queen of all trotters was driven back in recognition of the cheers showered upon him. Doble was lifted from his cap in recognition of the crowd and men fought like maniacs in the scramble to grasp the successful driver's hand and shoulder. The crowd was so dense that the successful driver's hand and shoulder were lost in the crowd. Others ran up and caressed the mare as she was being blanketed and led from the track.

NANCY HANKS' RECORD. Nancy Hanks, like many of the trotting celebrities of the past, is a small-sized animal not exceeding fifteen hands in height. She is a dark bay, bordering somewhat upon the brown, in color, and a trifle angular in her general outline, somewhat resembling the wonderful champion, Goldsmith Maid (2:14), winner of 82 heats in 2:30 or better. She is one of the most thoroughly honest, re-

Columbus Flaming Arch, with authentic portrait of the discoverer of the New World.

liable trotters that has ever appeared upon the turf, and her career has been marked by such a succession of brilliant victories as has never fallen to the lot of any other trotter of her age.

Nancy Hanks' first appearance in a public race was at Harrodsburg, Ky., July 21, 1889, where she met Bonnie Wilmore, Abby V. Twit, Catherine Leyburn, Minnie Moore and Hattie H. The first heat was won by Bonnie Wilmore in 2:28, which was a record at the time. The second heat was won by Hattie H. in 2:27, 2:25, 2:24. The above is the only heat that she ever lost. She won in all seven races that year and closed the season with a record of 2:24. In 1890 Nancy Hanks won six races, the most notable of which was at Lexington, Ky., Aug. 28, where she defeated Bonnie Wilmore and Hattie H. in 2:19, 2:18, 2:14. The time of the fastest ever made by a 4-year-old trotter in a race. Last season Nancy Hanks fully maintained the great reputation for speed, pluck and endurance that she gained in her 7-year-old form. She won at Pittsburgh, Detroit, Buffalo and Chicago. On Aug. 2 she met the wonderful trotting stallion Allerton at Independence, Mo., and defeated him in 2:12, 2:12, 2:12. On the 24th ult., Nancy was started at Cambridge City, Ind., to beat her record. She was accompanied by a runner, the latter going to saddle. She trotted the mile in 2:08. The time of the quarter was 32, 33, 34. The runner, which was to accompany her on the last quarter, with an 11th place finish. The following week she reduced her record to 2:04 at Richmond, Ind., where she was accompanied by a runner, the latter going to saddle. She trotted the mile in 2:04. The time of the quarter was 32, 33, 34. The runner, which was to accompany her on the last quarter, with an 11th place finish. The following week she reduced her record to 2:04 at Richmond, Ind., where she was accompanied by a runner, the latter going to saddle. She trotted the mile in 2:04. The time of the quarter was 32, 33, 34. The runner, which was to accompany her on the last quarter, with an 11th place finish.

The official time for the mile, which was as honest a mile as was ever trotted, is 2:05, 1:38, 1:02, 2:07. She was handled on this occasion by Budd Doble, and accompanied by the pacesetter, Abe Lincoln, who was driven by Frank Starr. The time made is just exactly one second faster than the time made by Maud S., which heretofore stood as the world's record for a mile on a regulation course.

Nancy Hanks was got by Happy Medium when that horse was 22 years old. Her dam was Nancy Lee, a mare foaled in 1875, and for one long minute breathless silence reigned. Everyone was consulting his watch and the figures at which the hands had stopped held the crowd in awe. Then, awake to the fact that all record had been broken, the great assemblage burst into cheers loud and long as the queen of all trotters was driven back in recognition of the cheers showered upon him. Doble was lifted from his cap in recognition of the crowd and men fought like maniacs in the scramble to grasp the successful driver's hand and shoulder. The crowd was so dense that the successful driver's hand and shoulder were lost in the crowd. Others ran up and caressed the mare as she was being blanketed and led from the track.

Two favorites, a similar number of second choices, and straight out, a 17 to 1 chance,

captured the purses at East St. Louis yesterday. The weather was delightful, and there was a large crowd out to witness the sport. The summary follows:

First race, one-half mile—Miss Nelson won, second, Billy Duncan, third, Time, 2:45.

Second race, five-eighths of a mile—Charlie Wilson won, second, Johnie Swartz, second, Billy W., third, Time, 1:04.

Third race, five-eighths of a mile—Dan Hough won, second, Revo d'or, third, Time, 1:02.

Fourth race, five-eighths of a mile—Straight Out won, second, a Uf, third, Time, 1:02.

Fifth race, Owners' handicap, one mile—Eight Swift won, second, Zoolite, third, Time, 1:41.

AT SOUTH SIDE.

Red Bird an even money first choice, won the opening scramble at South side last night. Iowa Boy II., a red-hot first choice at 2 to 5, was successful in the second event; Ban Boy, another first choice at 1 to 5, captured the third race and the closing event was taken by an outsider, Jim Fagin, who closed at 5 to 1. The summary follows:

First race, six furlongs—Red Bird won; Helahazar, second; Luke Richards, third, Time, 1:19.

Second race, three and a half furlongs—Iowa Boy II. won; Eschelon, second; Little Mollie, third, Time, 2:04.

Third race, half mile—Ban Boy won; Iowa Boy II., second; Elie S., third, Time, 1:50.

Fourth race, three and a half furlongs—Jim Fagin won; Bryant T. Harry, second; Mollie Mexico, third, Time, 2:15.

TO-NIGHT'S ENTERTAINMENT.

First race—Five furlongs: Kentucky Maid, second, Correction, third, Time, 1:27.

Second race—Three furlongs: Kentucky Maid, second, Correction, third, Time, 1:27.

Third race—Three furlongs: Kentucky Maid, second, Correction, third, Time, 1:27.

Fourth race—Three furlongs: Kentucky Maid, second, Correction, third, Time, 1:27.

The races run over the sheephead Bay course at Coney Island yesterday resulted as follows:

First race, seven furlongs—Dr. Hasbrouck, first, Time, 1:27.

Second race, three furlongs: Kentucky Maid, second, Correction, third, Time, 1:27.

Third race, three furlongs: Kentucky Maid, second, Correction, third, Time, 1:27.

Fourth race, three furlongs: Kentucky Maid, second, Correction, third, Time, 1:27.

Light-weight jockeys at Sheephead Bay are scarce. Fred Tarnal, the jockey, recently lost his boy by death. Jockey Slings will wear the colors of the Rancocas Stables in 1893. This is ladies' night at South Side Park.

ladies being admitted free to all the privileges of the park.

Chris Smith, owner of Yo Tambien, tells the Eastern turf editors that he is not looking for a match race for his mare.

The three contests at New Orleans, commencing with the Myer-McAuliffe battle on Monday night, will be continued by rounds at South Side Park. The Sullivan-Corbett fight will be called by rounds, as will the others.

McKean has been made to the Cleveland team since it started as an American Association team in 1887.

Pitcher George Davies, although in seemingly perfect condition, still haunts the Cleveland bench.

Stovey has made 6 doubles, 10 triples and 3 home runs, besides stealing 15 bases and scoring 22 runs in 8 games.

Pete Browning is said to have left Louisville yesterday for Cincinnati, where he will sign a contract with Coniskey's Reds.

Tom Daly of the Brooklyn Club has filed every position on the diamond except that of pitcher and has been successful in them. Chamberlain has been notified by Cincinnati that his salary will be discontinued unless he puts himself into good pitching condition.

The Browns leave for Brooklyn Saturday night. They make their last Eastern trip before returning home to play Cincinnati Sept. 22.

Roger Connor, Sam Thompson, Billy Hamilton and Delehanty, four of the best hitters in the business, are all members of the Philadelphia Club.

The Browns' left fielder's name is Moriarty. In practice yesterday Morgan beat the left fielders in the last Washington game, cutting off a home run, Milligan yelled: "Are you there?"

It is stated that Hoy of the Washington Club recently gave his friend, Secretary Foster of the United States Treasury, a sudden shock by a request for the Secretary to invest \$2,500 in some safe way for him.

Lave Cross, Philadelphia's crack catcher and all-around player, will not be seen with the Quakers in this city. Lave is laid up with a broken finger. Capt. Clements, the club's premier catcher, is also on the hospital list. Jimmy Downes is at present doing all the catching.

Morgan Murphy, Cincinnati's great catcher, will hardly be able to play any more ball this season. In practice yesterday Morgan beat the left fielders in the last Washington game, cutting off a home run, Milligan yelled: "Are you there?"

THE CHAMPIONSHIP RACE.

CLEVELAND, Sept. 1.—The following is the score between the St. Louis Clover Leafs and the Waterloo (Ill.) team: Waterloo, 1; St. Louis, 0.

C. M. Murphy is the other Murphy's brother and a very fast man.

WHEEL NOTES. Zimmerman gives it out that he is a bit stale. Sanger works a wheel geared to seventy-two inches. The man weighs 194 pounds. Adams, an English rider, has reduced the 100-mile track record to 3h. 4m. 15.5s. in competition.

Rhodes has a singular, jerky style of riding that is anything but pleasant to witness. But for all that he goes well.

Reip, who has been doing such speedy mile work in places as far East, is a Briton. He is not long out of Birmingham.

Zimmerman thinks he will meet Hands and the other speedy road riders on Oct. 1 in the Boston twenty-five-mile road race.

Capt. Van Stieken is forming the Chicago club team for the Eastern and Western racing grounds. Zimmerman, who is a Briton, is meditating taking leave of the track and going on the cinder path as a runner. He can run a mile inside of 4m. 30s.

Jack Prince, the professional, is in Chicago. Jack is out for the stuff, and has had the most profitable season by far since he started riding. His specialty is racing against trotting horses. At DeLancey, O., he rode five miles for \$200 a side and the other receipts. There were 5,000 people on the grounds. He won the contest.

SPORTING NOTES. A member of the Olympic Athletic Club of New Orleans, who is at present in this city, wishes to place \$100 to \$200 on Jim Corbett.

There will be a meeting of the members of the Missouri Gymnasium and Athletic Club this evening at the gymnasium, 310 Olive street, to elect officers for the ensuing year and to complete arrangements for the individual championships, and to send a tag-of-war team to the indoor championships in Chicago next October.

Bob Farrell will leave for New Orleans tonight.

Mrs. Sarah Lowenstein, mother of Lee Denure, ex-champion amateur heavyweight of this city, died last night after a short illness.

Fishing Schooners Overhauled. SAN FRANCISCO, Cal., Sept. 1.—The cord-fishing schooners John Hancock and the Acadia have arrived from Behring Sea, and the Captain of the latter reports that he was overhauled several times by United States cutters and trollers in the North, and on one occasion the cutter Corwin signaled him to obey. The Captain says there was a dead whale on the ground and it was 1,000 feet long. According to the Corwin fired twice across the schooner's bows and afterwards sent the log's crew aboard, who made a complete search of the vessel without finding any evidence that she was engaged in sealing.

Mrs. Winslow's Soothing Syrup Reduces Inflammation while children are teething. See bottle.
